Agenda

1. Review of submitted proposal for FREN 2004. The course was unanimously approved by the Committee.
2. Review FYS courses for Fall 2015. All courses were unanimously approved by the Committee.
3. Review of submitted proposal for CLDE 1000. The course was unanimously approved by the Committee.
4. Review of submitted proposal for LDAR 1005. The Committee agreed that the course was designed more towards juniors and seniors, is more like a major course than a general-education course, and does not integrate either the Humanities Core-Area learning outcomes nor the CCOC requirements of teaching writing and critical thinking. Significant revision is needed. Action: Hans Morgenthaler and Manuel Espinoza will communicate with the course instructor on making revisions.
